SEALERS GUIDE

HIGHEST LEVEL CLEAN

WATER REPELLENT COATINGS FOR MASONRY SURFACES

- **WATER-BASED SEALER**
- **SILICONE-BASED SEALER**

THE WAVE OF THE FUTURE

ONE CHOICE...BECAUSE IT WORKS!

**FOR PROFESSIONAL USE ONLY
THE BEST INFORMED CHOOSE**

EaCo Chem has been producing exceptional cleaning chemicals for decades with nothing but the best results. Our chemistry has been approved worldwide on many projects. Professional cleaners that choose to stay ahead of their competition have one thing in common - the desire to be the best. That includes using the best chemicals.

Splitface Block

INDUSTRIES WE SERVE:

- NEW CONSTRUCTION
- RESTORATION
- HOUSE & DECK
- FLEET WASHING
- HARDSCAPE
- PAINT STRIPPING
- WINDOW RESTORATION

SEALERS FOR MAXIMUM PROTECTION

WATER-BASED SEALER FOR MASONRY

SILICONE-BASED SEALER FOR MASONRY

WATER REPELLENT COATINGS

THE WAVE OF THE FUTURE

EC 101 WB SEALER

EC 101 WB forms uniform, long lasting, water repellent coating on pavers, concrete surfaces, brick and split faced block. This coating enhances the surface without leaving the surface slippery when used on horizontal surfaces. Efflorescence problems can be dealt with even after the coating has been applied. EC 101 WB protects from water, normal wear, and some food and oil stains.

ADVANTAGES

- Water based product will not cloud during the drying process if moisture is present
- Reacts with the substrate for excellent bonding/adhesion
- Allows efflorescence to pass through pores for easy future cleanup
- Good durability, resistant to traffic and wear
- Easy re-coating for touchups
- Unaffected by most cleaners
- Shows long term water repellency
- Works on old and new substrates
- Stabilizes joint sand on horizontal applications
- Expected longevity of 10+ years on vertical surfaces

EC 102 SOL SEALER

EC 102 SOL forms uniform, long lasting, water repellent coating on pavers, concrete surfaces, brick, and split faced block. This coating enhances the surface without leaving the surface slippery when used on horizontal surfaces. Efflorescence problems can be dealt with even after the coating has been applied. EC 102 SOL protects from water, normal wear, and some food and oil stains.

ADVANTAGES

- Reacts with the substrate for excellent bonding/adhesion
- Allows efflorescence to pass through pores for easy future cleanup
- Easy application (no mixing, low pressure spray)
- Good durability, resistant to traffic and wear
- Easy re-coating for touchups
- Unaffected by most cleaners
- Shows long term water repellency
- Works on old and new substrates
- Enhances the color of the substrate
- Protects from water and most food and oil stains
