4. FIRST AID MEASURES

4.1 Description of First Aid Measures

General advice

Consult a physician. Show this safety data sheet to the doctor in attendance.
Remove contaminated clothing.

If inhaled

If breathed in, move person to fresh air. If not breathing, give artificial respiration.
Consult a physician. Prompt action is essential.

In case of skin contact

Take off contaminated clothing and shoes immediately. Wash off with soap and plenty of water. Wash clothes off before reuse. Seek medical attention if discomfort persists.

In case of eye contact

Check for and remove contact lenses. Rinse thoroughly with plenty of water for at least 15 minutes. Consult a physician.

If swallowed

Do NOT induce vomiting. Rinse mouth with water. Never give anything by mouth to an unconscious person. Consult a physician immediately.

4.2 Most important symptoms and effects, both acute and delayed:

The most important known symptoms and effects are described in the labeling (see section 2.2) and/or in section 11

4.3 Indication of any immediate medical attention and special treatment needed:

No data available.

5. FIRE-FIGHTING MEASURES

5.1 Extinguishing media:

Combustible material. In case of fire use water fog, dry chemical, CO₂, or "alcohol foam".

5.2 Special hazards arising from the substance or mixture:

Carbon dioxide.

5.3 Advice for firefighters:

If evacuation of personnel is necessary, evacuate to an upwind area. Use protective clothing and NIOSH-approved breathing.

5.4 Further information:

Keep containers and surroundings cool with water spray. Heat may build enough pressure to rupture closed containers, spreading fire & increasing risk of burns/injuries.

6. ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures:

Wear appropriate PPE. Evacuate the area and eliminate all sources of ignition. Persons not wearing the appropriate PPE should be removed from the area until the spill is cleaned up. Avoid run off to waterways or storm drains.

6.2 Environmental precautions:

Do not let product enter waterways or storm drains. Prevent further leakage or spillage if safe to do so.

6.3 Methods and materials for containment and cleaning up:

Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local, state and federal regulations. Keep in suitable, closed containers for disposal.

6.4 Reference to other sections:

For disposal see section 13.

7. HANDLING AND STORAGE

7.1 Precautions for safe handling:

Keep away from heat and sources of ignition. Protect against physical damage. Isolate from incompatible substances. Equipment should be electrically grounded. Empty drums contain residue (vapors, liquid) which may be hazardous. Observe all warning and precautions listed for this product in section 2.2.

7.2 Conditions for safe storage, including any incompatibilities:

Keep container tightly closed in a dry and well-ventilated place at ambient temperatures. Containers which are opened must be carefully resealed and kept upright to prevent leakage.

7.3 Regulatory Requirements: N/A

8. EXPOSURE CONTROL/PERSONAL PROTECTION

Engineering controls: Avoid contact with skin, eyes and clothing. Wash hands before breaks and immediately after handling the product. Ensure that eyewash stations and safety showers are close to the workstation location.

Ventilation Control: Provide adequate ventilation to control airborne concentration. In case of insufficient ventilation, wear suitable respiratory equipment.

Administrative controls: Educate and train employees in safe use of this product. Follow all label warnings and data sheet instructions.

Personal Protection: As prescribed in the OSHA Standard for Personal Protective Equipment (29 CFR 1910.132), employers must perform a hazard assessment of all workplaces to determine the need for proper protective equipment for each employee.

Eye Protection: Close fitting safety goggles. Face Protection shield if needed.

Skin and Body Protection: Wear protective gloves and protective clothing that is chemical resistant & prevents skin contact.

Respiratory Protection: If irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn.
